WZL circle of friends honors young scientists

At its annual meeting in 2017, the Circle of Friends of the Laboratory for Machine Tools and Production Engineering (WZL) at RWTH Aachen University once again honored young engineers who demonstrated outstanding achievements in their studies. This year's winners of the "Best Junior Engineer Award" are:

- Peter Schlegel,
Chair of Production Metrology and Quality Management
- Marian Wiesch,
Chair of Machine Tools
- Sebastian Elmar Schloesser,
Chair of Production Engineering
- Lukas Heidemanns,
Chair of Manufacturing Technology

The "Best Junior Engineer Award" is valued at 1,000 Euro.

Laboratory for Machine Tools and Production Engineering (WZL)

The Laboratory for Machine Tools and Production Engineering (WZL) of RWTH Aachen University has stood worldwide for more than 100 years for future-oriented research and successful innovations in the field of production technology.

Under the leadership of four professors Christian Brecher, Fritz Klocke, Robert Schmitt und Günther Schuh, the WZL is conducting research in six areas – production technology, machine tools, production systems, transmission technology, production metrology and quality management - on the future-oriented design of production in high-wage countries. Together with industry partners from various sectors, the WZL develops solutions for a wide variety of production scenarios in both publicly funded and bilateral projects. These activities are being consolidated on the RWTH Aachen Campus in the Cluster Production Engineering.
